Major comments from students:

- ✿ Heavy panels are clumped together at the second half of the second semester, with OSCE, two 5-Day SSM and two PBLs.
- ✿ Suggest to start the 2-D SSM earlier in the 1st semester, so that there will be more time to study in 2nd semester.
- ✿ OSCE and PNEU SA are scheduled back to back. The whole class would like our exams to be more spaced out.
- ✿ The arrangement of lectures hardly allows time for revision and preparation (whole day lectures).
- ✿ Need post-SA evaluation/review, so that we can learn from our mistakes.
- ✿ Students strongly suggest having reading week for each semester.
