

# Issues related to 334

(with special reference to MB ChB)

# Problem 1 – Sheer numbers

- Two cohorts  
(210 X 2 for MB ChB  
197 X 2 for Nursing  
35 X 2 for Public Health  
55 X 2 for Pharmacy  
Additional 20 students for Year 1 for MB ChB from Shantou  
Total : 1,014 New students at the doorstep of the Faculty in September 2012)
- All four programmes have increased numbers other than 334
- School of Chinese Medicine will definitely be part of our Faculty Package (25-30)

## Problem 2 – Teaching facilities

- Renovation of Lecture theatre, seminar room 1 and Medical Library at PWH just completed
- Re-location of departments at BMSB and conversion of the vacated spaces to teaching facilities for students of all four programmes. Do we have enough time ? Do we have enough money ?
- Big lecture theatre at Mong Mang Wai Building reserved for Faculty use and release of Ching Kai Hall for University general booking

# Problem 3 - Curriculum

- University core curriculum of 39 units, the majority of which are taken in Year 1
  - 6 units of Chinese
  - 9 units of English
  - 21 units of General Education
  - 1 unit of Information Technology
  - 2 units of Physical Education
- For MB ChB, some exemption for Year 2,3 English
- 1 unit is roughly 13 hours
- Criteria for exemption, esp for Year 1 language, are set up

## Problem – 3 - curriculum

- Faculty Package for all five curricula (medicine, nursing, pharmacy, PH, CM)

Health Science 1 (2 units)

Health Science 2 (2 units)

Communication skills (3 units)

Public Health and Healthcare ethics (3 units)

## Problem - 3 - Curriculum

- How does one keep students interested in view of the low component of medicine, pharmacy, public health, Nursing, Chinese medicine in the first year ?
- How does one weed out the ones who are not so suitable as the first year is quite “easy”

## Problem – 4 – student selection

- How can one interview with such a large number (eg MB ChB needs to admit 420). How many should one interview and when should one interview
- For the non-Jupas, who goes into Year 1 and who goes into Year 2 (for MB ChB)
- For the Jupas (HKDSE), should we admit all into Year 1 (For MB ChB)
- How can we compete for students with such a large number of admissions ?

# Problem – 4 – student selection

- For MB ChB, there is a broad range of other admissions :
  - Students who have a degree
  - Students who have done one year of medicine overseas
  - Students who have done more than one year of medicine overseas
  - Students who have completed their “pre-clinical” studies overseas
- Are they being exempted for some of the University core requirements and the Faculty Packages ?
- Admissions of 2012 will affect 2013 admissions

# Problem – 5 - Teachers

- Do we have enough teachers ?
- For MB ChB, especially the more labour-intensive areas (e.g. COSK, PCLM, and the ward group teaching in the later years)

# Acknowledgements for 2012 efforts

- The Dean
- Renovations – Chan Sun On, Louisa, Jenny, Eddy
- Student selection – Tony Gin, Y.K. Wing, Sammi
- Exemptions & regulations – Yvonne Lai, Ashura Lam
- Year 1 and Faculty Package co-ordinators : Christopher Cheng, Michael Tam, Gary Wong, Samuel Wong
- The University

海峽兩岸暨香港地區醫學教育協會

Medical Education Association for China Mainland,  
Taiwan and the Hong Kong Region

#### 協會通訊

#### 研討會

#### 會員院校名單

一九九六年，北京醫科大學(現為北京大學醫學部)王德炳校長、台灣國立陽明大學張心湜校長及香港中文大學醫學院李川軍院長，高瞻遠矚，促成三地院校代表成立海峽兩岸暨香港地區醫學教育協會，在長江三峽遊輪上舉辦了第一屆研討會，隨後每年進行研討會至今，成績斐然，果碩纍纍。協會在翌年九月註冊為香港法定社團，秘書處設在香港中文大學。分別由北京大學、台灣陽明大學及香港中文大學一名教授出任為主席團成員。

協會成立至今有四十一間會員院校。每年都舉辦研討會，舉辦研討會地點的一個周期，依次序為內地、內地、香港、內地、內地、台灣。院校藉一年一次的研討會，共同研究值得關注而又合時的醫學教育問題，加強會員
