

# Sharing teaching experience

Tam Wing Hung  
Associate Professor  
Department of Obstetrics &  
Gynaecology

# Teaching a tutorial

- Topic
  - Important & relevant to undergraduate level
- Students
  - Would be expected to know something by that stage
- The content
  - Appropriate but not too much
- The format

# Format

- Give them a hypothetical or real clinical situation
- Guide the logical thinking
  - Diagnosis? Investigate? Next management
  - From a simple to a more difficult case
- Encourage them to give opinion
  - Even it may be a wrong answer

# Bedside teaching

- Teaching on clinical examination methods
- Teaching on practical management in clinics and ward round

# Undergraduate co-ordinator

- Interview students on various learning issues or learning problem
- De-briefing session
  - Good chance to interact with students
  - Listen to some feedback at the end of each module

# Overall experience

- Teaching could be quite rewarding
